

# JOÃO MATOS

Full-Stack Web Developer | Business Analyst | Controller

> By experiencing first-hand that multinational enterprises face profound challenges in managing data, which in turn, makes it harder for analysts or the upper management to convey, properly, accurate and realistic results: I realize now that my 'working passion' is to help companies to reorganize | rearrange data, leveraging the knowledge by providing increased insights to stakeholders, in a timely manner.

> Currently seeking professional opportunities to learn and grow:

- Business Intelligence & Data Visualization.
- Front-End & Back-End.

## Professional Experience
